

Educational Program Support Opportunities

The AAN Conference Subcommittee (the group within the AAN responsible for the live CME programming) uses a variety of needs assessment mechanisms when selecting educational programs. The needs assessment resources/tools include, but are not limited to, program evaluations, director/faculty evaluations, auditor evaluations, trends, and new therapies/science, ABPN recertification outline, ABPN/ACCME core competency requirements, and core curriculum needs.

Funds requested for educational programming will be applied to audio visual requirements, printing costs associated with syllabi and handout materials, promotional materials for the event, etc. The intended participants will be primarily neurologists at all levels (residents, fellows, academicians, and practicing physicians). The expected number of participants varies per program. Each educational program is ACCME accredited and offers *AMA PRA Category 1 CME™ credits*. The AAN is the accrediting body for each program and is solely responsible for all aspects of the educational program.

Methods for audience generation include conference brochures mailed to 18,000+ members and nonmembers; emails to 40,000+ members and nonmembers; *AANnews*® mailed to US members and available online to all 40,000 members; the association e-newsletter sent twice monthly; and print and digital advertising placed in Academy publications such as *Neurology*®, *Neurology Today*®, and *Neurology Clinical Practice*.

2023 Fall Conference CME Support Opportunities:

We offer a robust education program of courses within the following topics:

- Aging, Dementia, Cognitive, and Behavioral Neurology
- Autoimmune Neurology
