**Appearance of Exhibit Booths**

Any part of a booth that does not lend itself to an attractive appearance, such as an unfinished side or end panels, must be draped at the exhibitor's expense. Show Management reserves the right to have such finishing done, billing the Exhibitor for charges incurred. Carpet or a suitable floor covering is mandatory for all exhibits.

**Assignment of Booth Space**

To take advantage of the priority point system, the exhibit space application must be received by Friday, October 26, 2018. Applications received after October 26, 2018 will be assigned on a first-come, first-served basis. Booth assignments begin Monday, October 29, 2018. Priority for space assignment is based on points awarded to exhibitors according to the following system:

- One point to those exhibitors whose applications were received by the priority point deadline in October 2017; for the 2018 Annual Meeting.
- One point for every 100 square feet taken at the 2018 Annual Meeting.
- One point for every consecutive year exhibited since 2014 (last 5 years).
- Points for companies who were Annual Meeting sponsors in 2018 (points assigned 1-5 based on level).

**Badges**

Exhibiting companies are entitled to four (4) exhibitor badges per 100 square feet of booth space, with a maximum of 125 badges per booth. Additional exhibitor badges may be purchased for \$100 each. Exhibiting companies are also entitled to one (1) free Guest Badge per 100 square feet of booth space, with a maximum of 4 badges per booth. Additional Guest Badges may be purchased for \$100 each.

Exhibitors can attend educational sessions with an exhibitor badge. However, exhibitors wishing to attend educational sessions for Continuing Education (CE) Credits must register for the Annual Meeting. There will be no credits given to exhibitors that are not paid registrants.

**Bags**

Distributing bags is only permitted provided they are either white or clear plastic without graphics, logos, or writing. **Any bags that do not follow these guidelines will be removed from the show floor.**

**Booth Equipment and Services**

This Exhibitor Service Kit (available in March) includes forms from The Expo Group (general contractor) for exhibitors to order items for their booth such as: booth rental furniture, carpeting, additional draping, accessories or signs. All orders for special work or equipment should be placed well in advance (no less than six weeks before the show) to avoid delay and additional labor charges. The Expo Group is fully equipped to serve exhibitors.

**Booth Layouts**

Following are descriptions and rules for In-Line and Island Booths:

**In-Line Booths**

In-line booths are generally arranged in succession and exposed to an aisle on one side. In-line booths are sometimes referred to as "Linear Booths". The standard In-line booth size in the US is 10'x10' (3.05m x 3.05m). Without concern for the number of In-line Booths used (i.e. 10x20, 10x40), booth displays should be set up in such a way so as to not obstruct the sight lines of other booths. The maximum height of 8 feet is allowed in the rear ½ of the space, and a maximum height of 4 feet in the front ½ of the space to the aisle.

Note: when three or more In-line booths are utilized in combination of a single space, the 4 foot height limitation only applies to that portion of the booth within 10' of an adjoining booth. In other words for any In-line booth space longer than 30', the 4 foot restriction is only applied to the 10' booth sections on the left and right extremes of the space. All video presentations must be confined to the back half of the booth. All in-line booths will be provided with an 8' high back wall drape and 3' high side drapes and one standard booth sign (7" x 44") with company name.

## Island Booths

An Island booth is any size booth that is exposed to aisles on all sides. Island Booths are generally 20'x20' or larger. Overstatement in the design should be avoided, and attention-getting devices such as flashing signs or lights, balloons, etc. are prohibited. Exhibits must be constructed in compliance with the Americans with Disabilities Act of 1991. Mobile units may be displayed provided they are in compliance with the Anaheim Fire Department regulations.

## Island Booth Display Rules

**A detailed rendering that clearly shows height and distance from the perimeter of each element of the display, including furniture and equipment placement, as well as the site and nature of any audio presentation is required to be provided to Show Management no later than Friday, March 29, 2019. There will be a \$500 fine for any company that does not provide this booth rendering by the due date.**

Island exhibits may extend to all outer edges of the booth space, but the design of the booth must allow accessibility from all four aisles and sufficient see-through areas so as not to block the view of the adjacent exhibits. All building materials including those considered "see-through" or "sheer" such as glass or fabric would be considered as possible visibility blockers when SNMMI reviews island renderings. If an exhibitor fails to submit renderings by the deadline, and the exhibit does not conform to SNMMI's rules and regulations, Show Management reserves the right to levy a fine up to \$1,500, close the exhibit and/or bar exhibitor from future SNMMI Annual Meetings. Islands with a covered area of 225 square feet or greater must have a fire suppression system approved by the Anaheim Fire Department.

**The maximum height allowed for an island booth is 23'5" (hanging signs may only go up to 23'5" as well). Island booths that abut a column may have, at their expense, that column draped up to the height of 12'. Peninsula booth spaces and bridging of aisles is not permitted.**

## Booth Lighting

Exhibitors should adhere to the following minimum guidelines when determining booth lighting:

- No lighting, fixtures, lighting trusses or overhead lighting are allowed outside the boundaries of the exhibit space. Exhibitors intending to use hanging light systems should submit drawings to Show Management for approval no later than Friday, March 29, 2019.
- Lighting should be directed to the inner confines of the booth space. Lighting should not project onto other exhibitors or show aisles.
- Potentially harmful lighting elements, such as ultraviolet lighting or lasers, must comply with facility rules and be approved in writing by Show Management.
- Lighting that spins, rotates, pulsates and other specialized lighting effects are strictly prohibited. Lighting effect should be tasteful and not interfere with other exhibitors or otherwise detract from the general atmosphere of the event.

## Booth Reduction or Cancellation

Reductions or cancellations of booth space must be made in writing and cannot be taken over the phone. Written notification must be received by SNMMI no later than Friday, February 1, 2019. Exhibitors reducing booth space on or before February 1, 2019 will receive the appropriate reduction in booth cost. Exhibitors canceling on or before February 1, 2019 will have all fees less a \$300 service charge refunded. Exhibitors canceling after February 1, 2019 forfeit the full exhibit rental fee and are responsible for paying the remaining balance in full within 30 days of cancellation.

## Booth Space Application

A 50% deposit of the full booth cost is due with the application. The final booth payment is due by January 25, 2019. Payment can be made by check, credit card, or wire transfer in U.S. funds drawn from a U.S. bank. Companies located outside the U.S. wishing to send a wire transfer should e-mail [clamb@snmmi.org](mailto:clamb@snmmi.org) for instructions.

## All applications and booth payments should be sent to:

A list of these photographers will be given to security, and they will be allowed only in the booth for which they were contracted.
- c) Exhibitors may not deny a reasonable request from an attendee to photograph or videotape an exhibit from the aisle.
- d) Exhibitors may not photograph or videotape another exhibitor's display without permission from the exhibitor.

- All 110-volt wiring should be grounded three-wire.
- Wiring that touches the floor should be "SO" cord (minimum 14-gauge/three-wire) flat cord, which is insulated to qualify for "extra hard usage".

- Using cords normally made for use in homes are not recommended and are often prohibited. Cube taps are also not recommended and frequently no permitted.
- Power strips (multi-plug connectors) should be UL approved, with built-in over-load protectors.

## **Eligibility to Exhibit**

SNMMI reserves the right to determine the acceptability of applications for exhibit space. The products or services to be exhibited must be of professional or educational interest or benefit to the registrant and are, in the opinion of SNMMI, related to the field of nuclear medicine and/or molecular imaging and therapy.

## **Enforcement of Rules and Regulations**

Show Management will, at its discretion, deduct all or part of the priority points used to assign space for violation of any of the show rules.
